Official Complaint

To Whom It May Concern:

In September 2002, I purchased a new Peugeot 307 XSI (registration xxxxxxxx) from Peugeot Mochdre in Colwyn Bay.

Since I took delivery of the vehicle I have had nothing but problems with it. I have kept a log of everything that has gone wrong over the last eighteen months. I believe the car is now too unreliable and dangerous to drive and I simply won't put up with it anymore. I don't expect this kind of shoddy workmanship from a £16,000 car.

Before this I had two other brand new High Specification Peugeot's of which I had no problems with at all. (W417 TFM) Peugeot 206 Roland Garros and (YC02 JJF) Peugeot 206 Coupe Cabriolet. I had hoped that I would get the same satisfaction from owning the 307 XSI but experience tells a different story.

- **September 2002**
On picking up the car from the garage, I find that it has no Arm Rests and No Carpet Mats which we're supposed to come with the car. I also have a message on the dashboard indicating that the ESM/ASR is not responding.
- **October 2002**
Whilst driving along a busy dual carriage way, all the dials on the dashboard stop working. After a few minutes they reinitialise themselves.
- **January 2003**
New message on dashboard Anti Pollution Fault.
- **February 2003**
Car Battery completely discharges itself. Peugeot Assistance we're called and the battery recharged. Anti Pollution Fault reoccurs.
- **March 2003**
Anti Pollution Fault reoccurs.
- **April 2003**
Anti Pollution Fault reoccurs.
- **June 2003**
Anti Pollution Fault reoccurs and electric windows no longer lock from the keyfob. Was told that a software upgrade would be needed despite them working since September 2003
- **August 2003**
Car Battery completely discharges itself. Peugeot Assistance we're called and the battery recharged. Anti Pollution Fault reoccurs.
- **September 2003**
Anti Pollution Fault reoccurs.

- **October 2003**
Car Battery completely discharges itself. Peugeot Assistance we're called and the battery recharged. Anti Pollution Fault reoccurs.
- **November 2003**
Anti Pollution Fault reoccurs.
- **December 2003**
Car Battery completely discharges itself. Peugeot Assistance we're called and the battery recharged. Anti Pollution Fault reoccurs.
- **February 2004**
Anti Pollution Fault reoccurs. Accelerator pedal stops responding while driving resulting in a near miss accident.

This is obviously not acceptable and I want something done immediately. I am sick of having to take the car into Peugeot dealers to have the messages taken off the dashboard, but more importantly I am very concerned about the safety aspect of the car.

I will be away on holiday from 28th February until 6th March. This leaves you just over a week to come to a decision as to what you will do to help me and keep my as a loyal Peugeot customer.

I am well aware of the law with regards to the Consumer goods act and fit-for-purpose goods. While I don't feel it necessary to involve my solicitor and the law at this stage, I would have no hesitation should the need arise.

I look forward to receiving a satisfactory response soon.

Yours sincerely

Mark Fell-Crook
